

# Accredited mechanic training courses & work experience opportunities

## About us

We are a vocational placement provider in Leicester, designed to engage young people in meaningful, 'real world' work-based learning.

We combine the delivery of automotive training, car dismantling along repairing activities.

Our core activity is recovering and recycling materials and components from old vehicles to the highest degree possible.

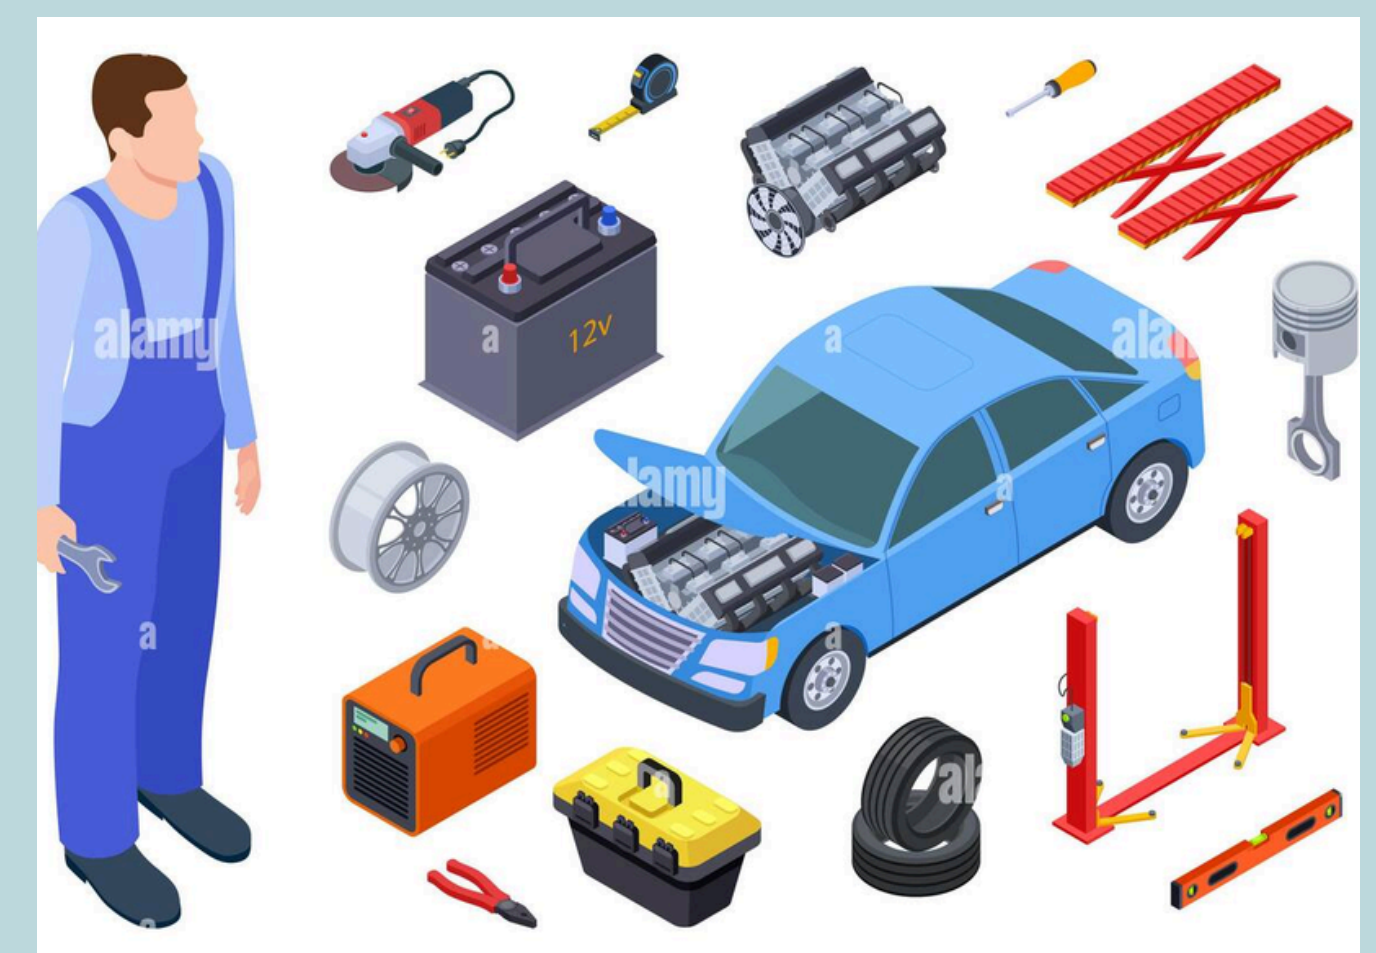

## Our expertise

We have worked with a wide range of students including those with special educational needs since 2010.

Places are available for students who may have been excluded, or who may be at risk of exclusion.

Students can be placed on either half-day or full-day programmes.

## What will students do?

Workshop health & safety basics  
Check vehicle lights & fluid levels  
Remove, clean & fit braking systems  
Inspect & refit exhaust systems  
Vehicle dismantling & recycling projects

Accredited courses at Level 1 and Level 2 in Automotive Studies are available.

From £15 per hour, per pupil or from £75 per day.
